

A WORD FROM KEN

I hope everyone is having a good year – I am getting lots of positive vibes from our customers, which is great.

Here at Eastlands we are continuing to grow and develop our business. The new area at the front of our yard has proved a great success. With this extra space we have been able to improve the layout of our stock and make it easier for customers to load products onto their utes and trailers.

We are in the final stages of planning the new building that will go up alongside the side fence of our garden centre. This building will store all our bagged garden products, ornamental pots, and other garden related products. Hopefully we will be able to start construction of this building shortly.

If you are in need of bulk metal and sand, don't forget that we have bulk bins out the back of our yard. We can either deliver a load to you or you can collect the product from our yard.

If you've never bought from Eastland Building & Farm Supplies before and you need some fencing or building supplies, give me a call. I'm confident that I can provide you with competitive prices and excellent service.

Regards

Ken

DELIVERY SERVICE

Delivery is a specialty of Eastland Building & Farm Supplies. If you want something delivered, just tell us what, where and when and we'll figure out the 'how'.

We have two of our own delivery trucks, the bigger of which can carry up to 10.5 tonnes. We also frequently organise large orders to be delivered via truck and trailer. For smaller deliveries to Gisborne, we use Gizzy On The Go to deliver supplies to your door or to a drop-off point.

NEED A SHED OR FARM BUILDING?

Contact us for a quote on the materials for your next shed or set of yards. We can help you decide dimensions and the design, then deliver everything you need. We can also recommend a quality builder to get the job done.
